For example, when Alabama football plays FCS opponents or when Manchester City plays an amateur team in the FA Cup, they are heavily favored.

Conversely, a bettor on the Bears would make \$245 in profit if they bet \$100.

Most games will see closer odds between the two teams.

A more extreme example is Alabama's 2019 season opener against Duke.

A more advanced technique is to see how the spread and the moneyline are correlated.

2 seed Ohio State with +900 odds.

That complicates the moneyline.

As a low-scoring sport, spreads aren't always available in soccer.
